# Lecture 2:
# More C Programming

CS211: Computer Architecture
Summer 2020

# Logistics

- Sakai Meetings (aka BigBlueButton)
  - If you had any issues for this lecture, email me

- iLab Machine and C Programs
  - Make sure by now you start on figuring out iLab machines
  - C programs have been provided in resources to help you get going

- Piazza
  - Make sure you have signed up if you haven't already at on Sakai -> "Piazza"
  - You can set it up so you can get email digests of activity on piazza

- P/NC policy extended to Summer Session
  - https://nbprovost.rutgers.edu/grade-change-academic-deadlines
  - https://nbprovost.rutgers.edu/guidance-faq

- Project 1 will be released by next lecture

- Mistake in previous lecture:
  - %lf is the formate specifier for double (essentially long float)
